KAYAR

PRODUCT INFORMATION

Artigo Kayar rubber flooring is achieved by adding fragments of natural coconut fibre to the rubber compound.

The technological innovation is in the mixing process, specially engineered by Artigo to obtain a uniquely random distribution of fibres on the surface.

Artigo Kayar resilient rubber flooring is a highly versatile solution suitable for Laboratories, Schools/Universities, Libraries/Museums, Offices and Retail Spaces.

COLOURS

Code K00

Code K39

Code K70

Code K01

Code K62

Code K104

Kayar has a non-invasive design with a smooth surface that is accentuated by natural looking (non plastic) coconut fibres.

Kayar offers 24 accent colours, making it easy to match and blend into existing designs.

Refer Rubber Floors website for current colour swatches.

CERTIFICATION/ENVIRO

The Good Environmental Choice Australia manages the prestigious Australian environmental label through a rigorous analysis of products and processes. It ensures that the products have a very low impact on the environment and human health.

The internationally recognized standard for the certification of the environmental management system of a company that provides a systematic framework for the integration of practices to protect the environment, prevent pollution, reduce the amount of waste, consumption of energy and materials. It engages the company in a dynamic and ongoing process which overall is necessary to achieve more ambitious goals in terms of environmental performance.

They give reassurances that the products designed for indoor environments meet the strict chemical emissions limits in indoor air, contributing to the creation of healthier buildings and better interiors. GREENGUARD certification ensures that product has passed some of the most stringent standards and comprehensive world-wide low emission of volatile organic compounds (VOC) in indoor air. They also qualify products for LEED and BREEAM credits.

Certified products:

Uni, Grain, Kayar, Granito, Screed and Natura.

CERTIFICATION/ENVIRO

The prestigious German environmental label that identifies the best products from an ecological and environmental point of view, it ensures the non-toxicity of the finished product and its components, and ensures very low VOC emissions within buildings.

Certified products:

Uni, Kayar, Grain and Granito.

TECHNICAL DETAILS

NZBC Protection from fire
